AZ CORP COMMISSION
DOCUMENT CONTROL

Re: Bowie Power Station L.L.C.,
L-00000BB-01-0118

Dear:

I would like to send my sincere thanks to you for making the long trip to the Arizona Corporation Commission on February 26, 2002. Your comments were important in helping me decide to support the Certificate of Environmental Compatibility for the construction of the Bowie Power Station.

Pursuant to A.R.S. Section 40-360.07 subsection B, the commission must balance certain factors in making a decision. Specifically, the commission is required "to balance, in the broad public interest, the need for an adequate, economical and reliable supply of electric power with the desire to minimize the effect thereof on the environment and ecology of this state."

Thank you again for traveling from afar to let your voice be heard. I look forward to seeing you at Willcox Days parades in the future.

Sincerley,

William A. Mundell
Chairman
